

cydui::events::emit_raw

```
graph LR; A[cydui::events::emit_raw] --> B[push_event]; B --> C[logging::logger::debug];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text 'cydui::events::emit_raw'. A blue arrow points from this box to a white rectangular box containing 'push_event'. Another blue arrow points from the 'push_event' box to a final white rectangular box containing 'logging::logger::debug'. All boxes have a thin black border.

push_event
